Worming Programme

Wormers are purchased by the yard at the best rate possible and added to your livery bill.

All horses will be wormed when they arrive at the yard with a duo wormer (Equimax Duo) and are to be stabled for the first 24hours. They will then be turned out separately for a week before being introduced with the other horses. This isolation period is to ensure the health of all horses on Pollyfield Farm Livery Yard. Pollyfield Farm Livery Yard will then carry out an egg count one month later to check whether the new horse is clear of worms.

Pollyfield Farm's worming programme offers the opportunity to have a worm count, and if the count is satisfactory then no wormer will be required at that time. Please advise Pollyfield Farm if your horse has an intolerance to any wormer. Please see the notice board for details of the next worming date or ask staff for further information,

Yard

The yard must be kept clean at all times. All dung must be picked up and placed on the muckheap and all rubbish must be deposited in the bins provided.

Once the yard has been swept (after all mucking out is completed) liveries are responsible for any mess that they create – hay, hoof pickings etc and are asked to sweep their area and deposit on the muckheap.

Please help keep the yard clean and tidy and how you would like it to look.

Yard Meetings / Events

Pollyfield Farm Livery Yard hopes to create a sociable environment that can be enjoyed by all liveries and staff and plan to do this with regular yard meetings, where any issues/concerns can be discussed, and events such as BBQ's, evenings out etc. Any suggestions/ideas are welcome.
